Anchor Reinforcement Setting Tool

The Gripple Anchor Reinforcement Setting Tool is used to easily set a Gripple Badger Anchor and Gripple Anchor Repair Kits.

FEATURES / BENEFITS

- Helps to set Gripple Badger Anchor 3s, 4s, and Anchor Repair Kits
- Two methods of setting: 1.) Setting Gripple Badger Anchors using a pre-ferruled top loop, or 2.) Setting Gripple Anchor Repair Kits using a pre-ferruled end stop
- Allows the top loop of the anchor tendon to be positioned just above ground level when the anchor is set

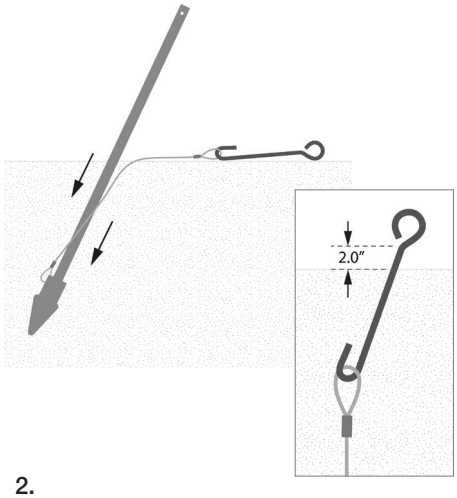

SPECIFICATIONS

Product Code	Length	Width	Material
TOOL-INSTANT-SET	10”	1.5”	Hot rolled mild steel

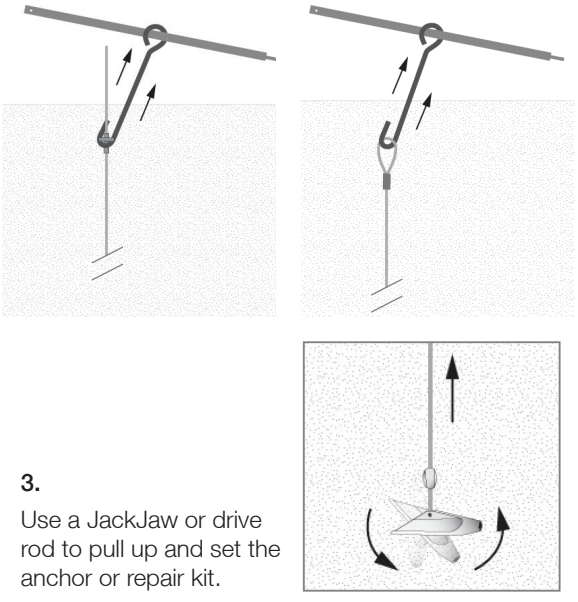

HOW TO USE

1.
Position the hook around the ferrule or through the top loop of the anchor cable.

2.
Drive anchor until the eye of the setting tool is 2” above ground level.

3.
Use a JackJaw or drive rod to pull up and set the anchor or repair kit.
